DATASHEET

KEY FEATURES

- Up to 50% lower cost per page*1
- High-speed business-quality results
- Save on paper usage and costs
- USB, Ethernet and Wi-Fi
- Robust and modern black design

We all know how frustrating it is waiting for a print job, even more so when it's only a few pages. That's why Epson created the WorkForce Pro WP-4025 DW network-ready, double-sided printer with WiFi. Designed to suit the modern office, both inside and out, this is the ultimate professional tool.

Faster printing: It offers a 50% lower cost per page*1 and faster printing*2 for those small print jobs, compared to the top 10 best-selling colour lasers. And when printing double-sided it's twice as fast as the nearest leading competitor*3.

Economical and Ecological: It offers a massive 80% reduction*4 on energy consumption compared to competitive lasers – providing significant cost and environmental savings. Ink cartridges are clean and easy to change and the cartridge is the only part that needs replacing, so the process is hassle-free.

Engineered for Business: A high print resolution of up to 4800x1200dpi means businesses get top-quality prints which are water, smudge, highlighter and fade resistant because they are instantly dry. And the paper capacity of 330 sheets as standard means you won't need to spend valuable time looking after it. Its high-yield, superior quality DURABrite Ultra ink cartridges are low maintenance and offer low-cost printing, producing 2,400 pages*10 or higher, if needed.

Easy to integrate: Network-ready for sharing across workgroups, it comes with USB, Ethernet and Wi-Fi*5 connectivity for greater flexibility.

Print on the move: It comes with Epson Connect*7 to meet all mobile printing needs, enabling users to print from smartphones and tablet PCs.
